

Reception Newsletter: 21.5.18

Our First School Disco!

Our very first school disco will be straight after school on Thursday June 21st.

No uniforms that day, the children can come to school in their disco clothes.

We will take the children down to the hall for the disco where we will stay with them throughout.

Pick up will be at 4.30 in the usual place at the bottom of the ramp.

Sun Cream!

Please ensure that children have water bottles and named sun hats in school. All day sun screen protection should be applied before the children arrive at school then there is no need for sun cream in bags.

Technology.

The Early Learning Goal for technology states 'Children recognise that a range of technology is used in places such as homes and schools. Children select and use technology for particular purposes.'

In school we provide a range of opportunities for children to use technology in order to reach the Early Learning Goal. We are always looking for examples of how your child is using technology therefore we would very much appreciate it if you could note some examples of your child using technology at home on the attached sheet and return it to school.

Examples might include: Using FaceTime with you, using a DVD player independently, using an app independently, using digital timers during cooking, successfully choosing the correct number for a particular song.
