Finding Half.

This week we have been finding half. We have shared a packed lunch between teachers by carefully cutting the food in half/right down the middle to make it fair. We have been using lots of lovely maths language e.g. share, even, fair, half, equal. At home, how about sharing toys/sweets/food into groups e.g. groups of 2/3/4 etc. We would love to know how you get on so please do drop us a line.

Parent Help!

St Mary's Church
Visit.

Mrs Mason's class will be visiting St Mary's church in the morning of Thursday 10th May. Thank you to parents who have already offered help to walk us to and from the church. We still need three more adult to support us. Are there any Mums, Dads, grandparents who can spare the time?

Planting.

We have been planting seeds in school! We have planted carrots, radishes, spring onions and cress. Some of our seeds are in a special viewing planter and we are excited to see what happens under the soil over the coming weeks. We have noticed some growth already and we are beginning to measure the shoots with a centimetre ruler. We will be thinking about the best conditions for our seeds and what the seeds need to grow.

If you are in the garden or out and about this weekend and your child notices anything new/any changes, drop us a line, we would love to know.

Have fun and
enjoy the long
weekend.

The Reception
Team 😊
