

# Year 3 Newsletter

Our newsletter is sent out fortnightly to keep you up to date.

Friday 11th July 2025

Welcome to the Year 3 newsletter. Can you believe next week is the last week of term! Time really does fly. We would like to take this opportunity to thank you all for your support this year. Read below to see what the children have been up to in their final weeks in Y3!

## English

We finished writing our persuasive letters in English with the children producing some lovely work and some very compelling arguments about saving the rainforest! We also had a chance to reflect on how far we have come this year. The children are working to a high level and have made huge progress in their writing and reading. They should be very proud of what they have achieved across the year...we are very proud of them!

## Upcoming diary date

**Friday 18th July**—End of school term.

**Monday 1st September**—Staff Training day

**Tuesday 2nd September**—  
Children back to school!

## A huge thank you!

We would like to say a huge thank you to all of you for supporting the children so well this year. Whether it be supporting school trips, helping the children with their homework or simply supporting them day to day, we really appreciate it. We hope you have a fantastic summer!

**THANK  
YOU**

## Transition day

The children met their new teachers last week and from chatting to them they all thoroughly enjoyed their day.

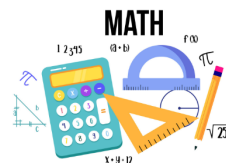

Year 3's loss will be Year 4's gain and hopefully they now feel a little more prepared and confident to tackle the changes heading their way in September.

The children will excel at the 'top of the school' and we look forward to seeing them continue to blossom as they move into their final year with us at Southridge!

## Maths

In maths lessons over the last few weeks we have been looking at a variety of things. We studied the time, looked at vertical, horizontal, parallel and perpendicular lines. We also looked at recognising the value of each digit in a three digit number. Next week, we will finish our maths year by looking at money and change.

The children have approached maths with a tremendous attitude this year and have made superb progress across the year. A big well done to them all!

Proud to make a positive impact

## Harvest Time!

We had great fun this week when harvesting our vegetables that we have been growing in our raised beds ready for the farmers lunch! We successfully grew potatoes, carrots and mangetout in our raised beds...and the harvest was plentiful! As you can see from the b photographs below, we loved it!
