

Reading and recording world temperatures

The world map below shows the average temperature in June for cities in several countries around the world. Read the temperatures then record them on the thermometers. Look carefully at the scales on the thermometers before you colour them in.

Reading and recording world temperatures

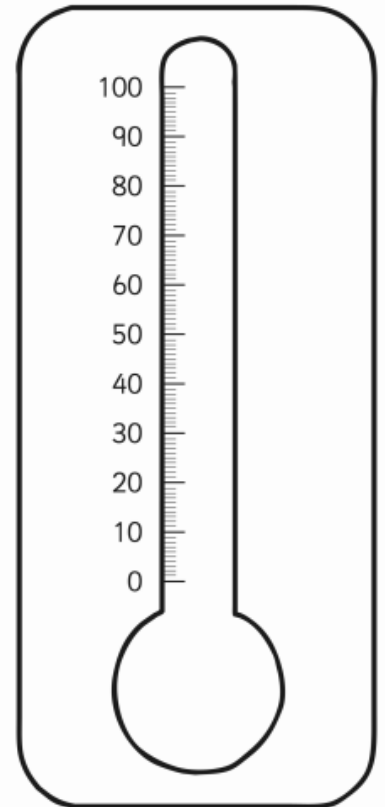

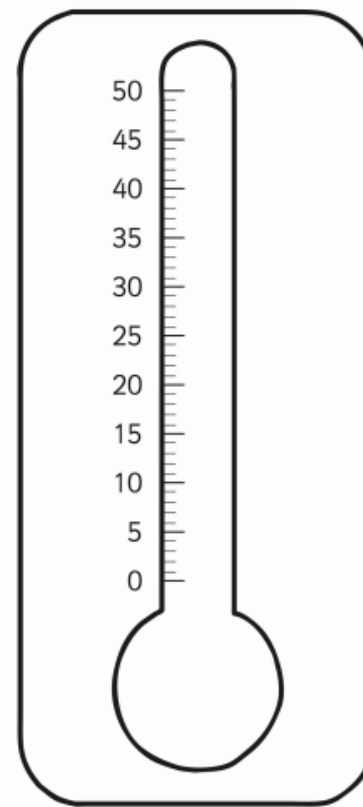

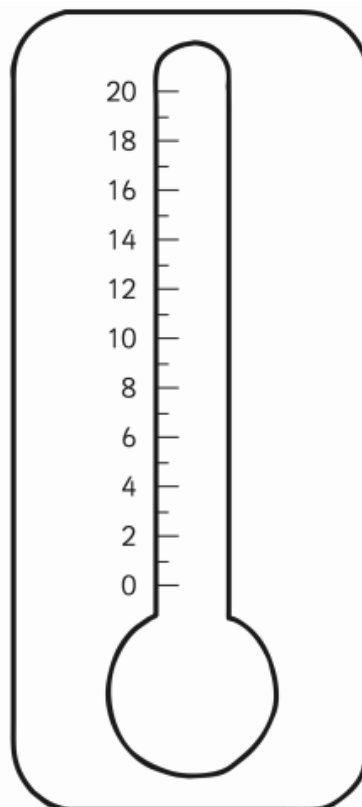

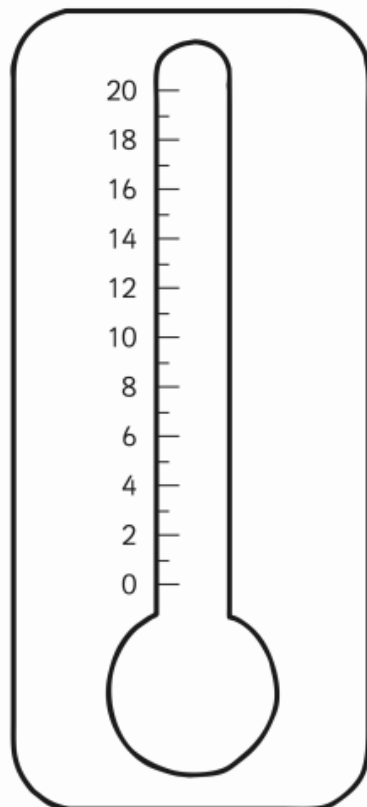

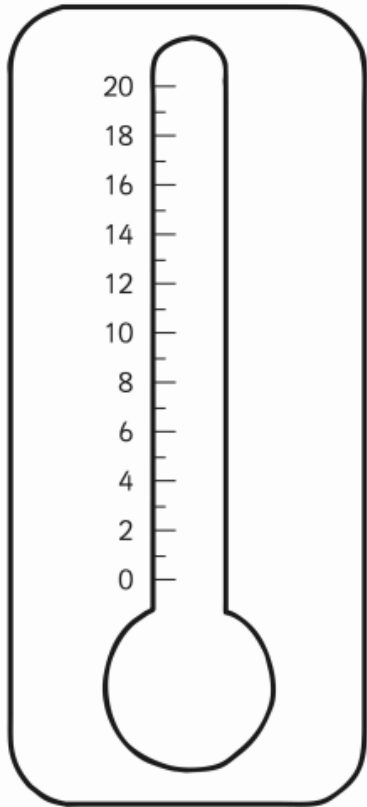

Newcastle, UK
12°C

Montreal,
Canada
18°C

Cape Town,
South Africa
13°C

Sydney,
Australia
15°C

Madrid, Spain
30°C

Reading and recording world temperatures

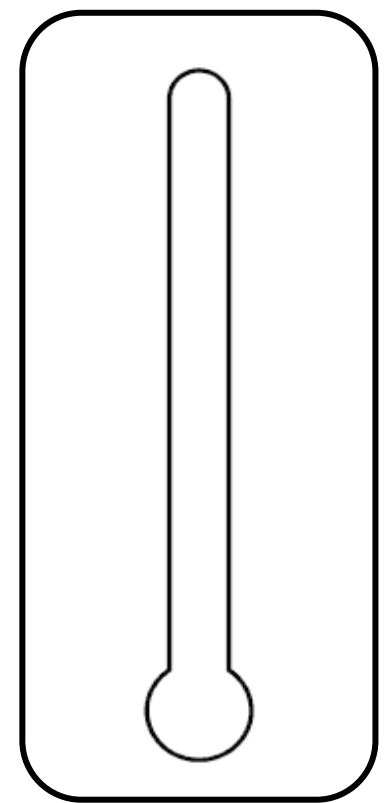

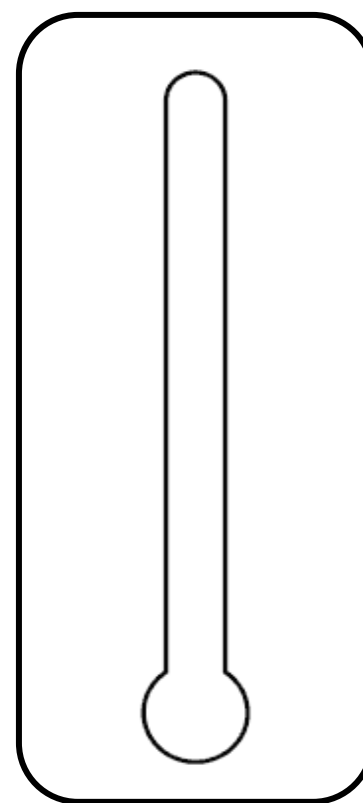

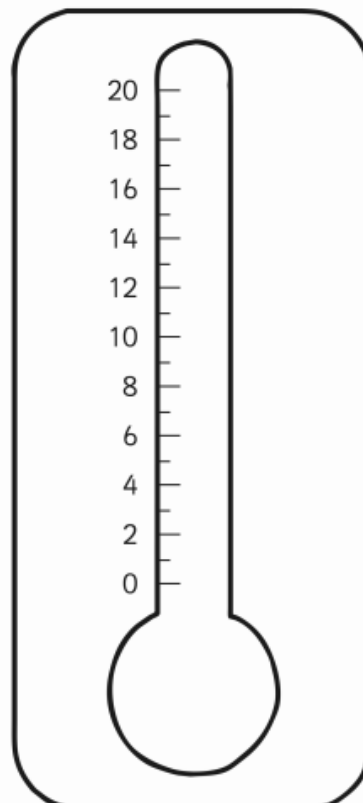

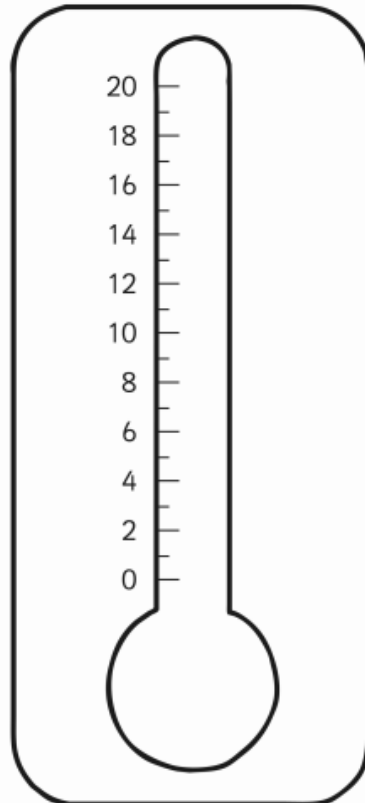

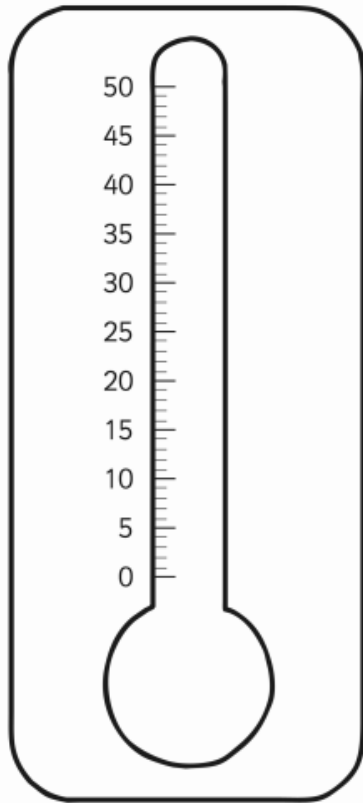

New Dehli,
India
35°C

Santiago, Chile
9°C

Moscow, Russia
17°C

Tokyo, Japan
22°C

Cancun, Mexico
28°C

Decide on a scale to record the temperatures for
Tokyo and Cancun.
