Year 1 Autumn 1

History

Topic: Toys

How do our favourite games and toys compare with those of children in the 1960's?

Changes within living memory.

- Knowing that some objects belong in the past.
- Use phrases like old, new and a long time ago.
- Identify objects from the past.
- Identify the main differences between old and new objects.
- Ask and answer questions about old and new objects.
- Spot old and new things in a picture.

Visit: Discovery museum.

- Toys from the past workshop.
- Lost in a toy museum activity.

Why do historians divide up time?

- Identify and describe some of the ways in which historians divide up time such as BC and AD and decades and suggest reasons for doing this
- Compare, contrast and sequence historical events to create a simple timeline of British history and a personal timeline of their life to date

What do people remember about the 1960s?

- Identify through observation and discussion some of the most memorable events of the 1960s and suggest reasons for their significance

How do the most popular toys and games of the 1960s compare with those of today?

- Identify and describe some of the most popular toys and games of the 1960s
- Compare and contrast toys and games of the 1960s with those of today, identifying and describing similarities (*continuity*) and differences they observe (*change*)

Why were there no smart toys and games in the 1960s?

- Describe and explain the cause of the major change to toys and games since 1960s

How can we make sure we play with smart toys and games safely and securely?

- Describe what Tim Berners-Lee invented in 1989 and suggest reasons to explain how this change affected toys and games and other aspects of life since then

What do adults I know remember about the 1960s?

- Recognise, describe and explain how they can use Wi-Fi-enabled toys and games safely and securely

Science

Topic: Use of Everyday Materials

- Distinguish between an object and the material from which it is made
- Identify and name a variety of everyday materials, including wood, plastic, glass, metal, water, and rock
- Describe the simple physical properties of a variety of everyday materials
- Compare and group together a variety of everyday materials on the basis of their simple physical properties.
- *To be able to identify and classify.*
- *To be able to observe carefully, using simple equipment.*
- *To be able to ask simple questions and recognise that they can be answered in different ways.*
- *To be able to perform simple tests.*
- *To be able to record simple data in order to answer a question.*
- *To be able to make simple measurements with equipment (non-statutory).*

Topic: Seasons

(ongoing throughout year but reviewed in this term)

- Observe changes across the four seasons
- Observe and describe weather associated with the seasons and how day length varies.
- *Ask simple questions and recognise that they can be answered in different ways.*
- *Perform simple tests.*
- *Observe closely, using simple equipment.*
- *Gather and record data to help answer a question.*

Geography

Topic: Pirate Island

- *Use simple compass directions (north, south, east and west).*
- *Use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use and construct basic symbols in a key.*
- *Use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment.*

Design a simple pirate map including a key.

Use a simple map of the school grounds to complete a treasure hunt.

Recognise key features on aerial photographs of our local area.

Science

Topic: Investigations and Seasonal Change

- Observe and describe weather associated with the seasons and how day length varies.
- Ask simple questions and recognise they can be answered in different ways.
- Observe closely, use simple equipment and perform simple tests.
