

Reception Newsletter: 9.10.20

By now you will have received reading material pitched to your child's ability and in line with the reading power point presentation.

Some children will:

- Be still working on speed sounds and recognising them. (We gave you a speed sounds chart to help practise them at home)
- Be able to begin blending words with 3 letters together with your help in line with the reading presentation of the correct bounding and stretching sounds.
- Be able to practise the sounds needed to read a simple sentence and recognise tricky words within it by site. In addition they will be able to hold a sentence and repeat it back to you. (For challenge you may wish to ask them to write that sentence down using sound talk to sound out the green words and use capital letters and full stops at the end).

Please do not put water bottles in book bags

We will be reassessing and regrouping children next week

Please ensure you put the waterproof plastic wallet and reading record in book bags

We have been up to the hall to do P.E. We have begun getting our trainers on independently to begin.

We have been practising our coordination during movement and learning how to avoid obstacles, people and move backwards and side wards safely.

We have explored repeating patterns in many different ways.

Music, colour, shape and finding patterns in the learning environment.

We have been enjoying the theme of Autumn and as part of this we have learnt how to mix colours by using block paints, water and ensuring we keep our brushes clean before using another colour.

Paper plate Autumn wreaths to use our fine motor skills for scrunching and squeezing tissue paper to glue on
