

Reception Newsletter:

A wonderful start to our term has begun. Children have come in confidently and happily, so a big thank you to all parents for helping to settle them into their days with us. Below is just a small snippet of some special work the children have been doing alongside the everyday jobs to learn such as routines, where to put things, where the toilets are and who's who in their new class. We have loved the outdoor environment finding sand play, bike and scooter riding as well as large construction and tent making an enticing and exciting experience.

Please ensure that children have water bottles and named sun hats in school. All day sun screen protection should be applied before the children arrive at school. If hot weather is forecast.

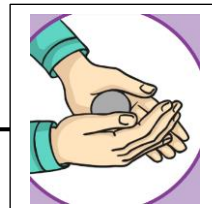

We have been getting to know the right way to put our shoes on through the story 'Alfie's Feet' by Shirley Hughes which has been incredibly useful in allowing children to feel a growing sense of independence.

Our First Gymnastics Lesson

As part of enrichment opportunities we have booked Gail Robson to lead on Gymnastics this term. This valuable experience gives children the chance to utilise and build on their balance and coordination as this not only links to their gross motor skills but also their fine motor such as coordinating letters.

More enrichment opportunities began with the start of our clay workshops this term. Clay helps children engage with a sensory and creative experience as well as developing finger muscle strength
